

C80R 'All in One' Camera & Lens cover Camouflage and weather protection

We are part of the Trading Standards 'Buy with Confidence' scheme and have been designing and making products for wildlife & nature photography for over 25 years. Our Camera & lens covers are one of our most popular products

Weather protection, Dust & Scratch protection, Camouflage, Insulation, Sound reduction,

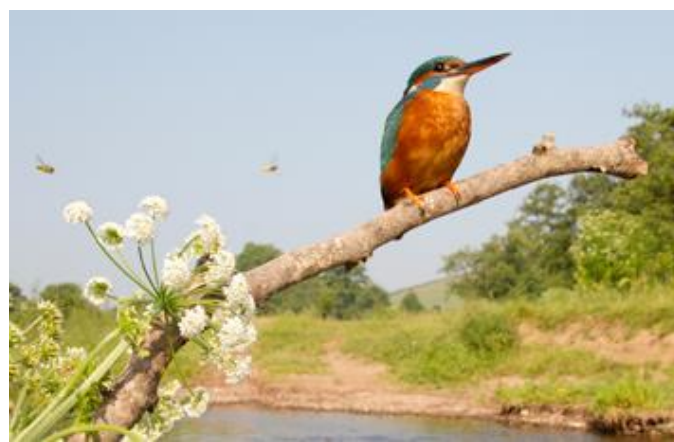

Our covers can be used with a Mono pod or tripod and have room to get your hand inside for manual focusing if needed. We have a range of patterns to suit your environment and the double layer covers can be reversed to the plain olive green side

Our Four Seasons 'All in One' Camera & Lens covers work well in reducing battery drain in cold conditions allowing you to stay out longer. The Four Seasons covers have four layers of technical fabrics. The inner fleece layer has a heat pad pocket for use in below zero temperatures

Our covers have been designed to protect your camera and lens in all weathers and conditions, whether it's raining or snowing or in muddy and dusty conditions or when you're by the coast and want to protect your kit from the sticky sea spray

Our 'All in One' covers have an elastic fit around the lens hood and a draw cord at the back which can be pulled in if the weather is bad. The cover can also be used as a sun screen when reviewing your photos on the back of the camera in bright sunlight

We use the best technical fabrics combined with the latest Realtree camouflage designs. We have a full track & trace quality control system so we can consistently produce the best products and designs. We supply photographers & nature film makers worldwide as well as British & NATO forces
