Code D36 Glow Powerpax & pocket 4 AA  
Code D37 Yellow Storacell & pocket 12 AA

## Battery storage

Store spare batteries safely in our neoprene pockets. The Neoprene pockets can be stored in a camera bag or can be kept in a pocket ready for a quick change, ideal in low temperatures.

## Battery protection

The 4mm high quality neoprene offers excellent protection against knocks, keeps the battery terminals covered and away from any metal that could cause a short circuit

## Battery insulation

The 4mm neoprene offers excellent insulation in cold conditions helping to maintain the battery's charge and reducing the temperature shock when going from a vehicle or building to the outside

## Travelling by air

Airlines ask that spare batteries are safely stored, protected against damage and battery terminals are covered to prevent short circuit.

Our neoprene battery pockets are ideal for the safe storage of your Camera and Video batteries when travelling by air
